Full-stack professional with strong web development and design skills and an extensive background in graphic design and fine arts. Recently completed the Coding Bootcamp at UNC-Chapel Hill demonstrating the ability to learn new skills with solid critical thinking abilities. Years of front-end web design and graphic design experience working in a variety of environments maintaining and designing websites. Managed from conception to completion large graphic design projects such as 40-page annual company booklets and bi-annual newsletters. With extensive experience in full stack development and a Bachelor of Arts in Fine Arts from St. Michael's College in Vermont, employers will find a team player and creative mind that enjoys problem solving and new challenges.
